GWM Jolion First Love Chulian

HAVAL Jolion (First Love)

As the dark horse in the 2021 car market sales, **Haval's Jolion (first love)** won a cumulative sales of 14674 vehicles in less than three months, shaping a perfect choice for cars with good popularity, sales, reputation, and topic popularity. Haval's first love set sail, and the overseas version was officially named JOLION, which not only sounded the horn for Chinese cars to launch a counterattack overseas, but also strengthened the user perception of "young people must enjoy luxury". **Haval's Jolion (first love)** starts from reality and uses hard power to impress global Generation Z consumers, allowing young people to bravely choose not to compromise or compromise. This is a milestone event for Chinese cars, allowing the world to meet the heart and the whole nation to have a first love together.

Chinese Haval, with international quality, is a brand new product for Generation Z. **Haval Jolion (First Love)** always adheres to the highest industry standards and strict requirements, achieving comprehensive product strength. Relying on the advantages of high flexibility, high performance, high safety, and lightweight of the Lemon platform, Haval Jolion First Love has tailored 8 fancy pet designs for young users, including 4 industry forward-looking technologies and 4 luxury intelligent products.

R·CHENG

Among the four major forward-looking technologies in the industry, the active emotion recognition system can recognize the driver's facial expression information for personalized push, and perform distraction detection and fatigue driving reminders based on the driver's vision; Facial recognition+voiceprint ID privacy dual insurance helps users log in to the system faster, better protecting privacy, and can remember 6 accounts, meeting the customization of different user habits, improving the intelligent experience; The situational intelligence system can actively remind users to open and close windows, turn on air conditioning, or turn on seat heating functions based on the current driving situation; The achievement system scores users' driving habits, allowing them to see their ranking among national car owners and share it.

R·CHENG

Among the four major luxury intelligent upgrades, **64 color ambient lights**+entertainment system support three lighting effects: rhythm, breathing, and flowing water, instantly igniting the atmosphere, anytime, anywhere 857; Three screen

intelligent linkage, integrating a LCD central control screen, full color head up display, and LCD instrument panel that supports WIFI intelligent projection, providing users with detailed driving information; Equipped with L2 level autonomous driving and 360 ° automatic parking for the entire scene, novice drivers can easily transform into experienced drivers to cope with various complex road conditions; There is also space, safety, power, and design derived from the industry's advanced lemon platform, providing users with a comprehensive and superior driving experience.
