Product Description

BMW I3 EV Pure Electric Sedan Max Range 592km Fast Charge 0.68h Left-Hand Drive BMW I3 2023 EDrive For Sale

The BMW i3 EV is a fully electric compact sedan that combines style and performance with zero emissions. With a carbon fiber-reinforced plastic (CFRP) body and chassis, the i3 is lightweight and nimble, offering agile handling and excellent acceleration.

The electric powertrain is housed within the floor, creating a flat, stable platform for passengers and providing a comfortable ride height for all occupants. The rear-mounted electric motor delivers 170 horsepower and 184 lb-ft of torque, enabling the i3 to accelerate from 0-60 mph in just under seven seconds. The battery pack powers the motor and can be charged at home or at public charging stations using a standard socket or DC fast charging.

Inside, the i3 features a modern, minimalist interior design with a central touchscreen display and digital instrument cluster. The rear seat folds flat for extra cargo space, and the front trunk can accommodate a carry-on bag. Standard features include leather upholstery, heated front seats, rearview camera, and Bluetooth connectivity.

The BMW i3 EV is an environmentally friendly and efficient sedan that offers the performance and luxury expected of a BMW.

BMW i3 EV has 582km mileage, fast charging 0.68 hour. Send a message to get your best price of **BMW I3 EV**
