Product Description

Luxury EV BYD U8 Byd U9 Byd Yangwang U8 Max Torque 1280N·M High Power 880kw Mileage Over 1000km Ev Gas Hybrid Off-Road

The 2023 BYD Yangwang U8 edition showcases a pompous appearance and advanced features that take on gasoline-powered SUVs. The SUV sports a diamond-patterned grille and LED headlights, which are complemented by a luxurious cabin with leather upholstery and modern infotainment system. It is powered by a plug-in hybrid system, which combines a 2.0-liter engine with electric technology to produce an output of 880 kilowatts and torque of 1,280 newton meters. The SUV can accelerate from zero to 100 kilometers per hour in just 3.6 seconds and has a pure electric range of up to 180 kilometers per charge under CLTC conditions. The combined range for the SUV is an impressive 1,000 kilometers on a single tank, with fast charging capability of reaching 80% capacity in just 18 minutes. The byd yangwang U8 luxury edition also features an advanced entertainment system that includes top-of-the-range audio equipment throughout the car.

Vehicle Warranty	6 Years/ 150,000 KM

The BYD Yangwang U8 luxury edition adopts a daring design language that projects a confident image. The front end sports a large grille with a diamond-patterned design, complemented by LED headlights mounted on each side. The grille not only looks imposing but also houses state-of-the-art driver assistance hardware, including a lidar sensor and high-tech smart

cameras to scan the environment.

The SUV's proportions and overall size create an imposing presence on the road. It sports a 36.5-degree approach angle, a 35.4-degree departure angle, and a maximum wading depth of 1,000 millimeters, which is more than capable of handling off-road conditions. The wheels house various sensors and are designed to function as an important part of the car's advanced driver assistance system.

At the rear, the SUV sports a prominent eight-sided spare tire mounted externally, which is complemented by split light guide taillights. An interesting feature is the presence of six chrome trim strips on the D-pillar, each housing an LED strip that lights up when the car is unlocked or charging.

Inside, the cabin is awash with a sense of luxury and technology. Dubbed the "Star Ring Cabin," the interior is designed around a concept of multiple curves to create a wrap-around feel. The use of Nappa leather adds a touch of class, while the array of digital displays brings modernity to the cabin. The 12.8-inch central touchscreen is mounted directly on the dashboard and is flanked by a 23.6-inch full-size instrument cluster screen and a rear entertainment screen that extends across the width of the car.
